**ON**

**THE PROGRESS**

**OF**

**AHMADIYYAT**

AN AMCJ PUBLICATION

## FOREWORD

On the auspicious occasion of the Ahmadiyya Muslim Centenary Jubilee during 1989, the various achievements and activities of the Jamaat in different fields will be projected with the help of statistical charts.

The charts contained in this compilation have been prepared by the Department of Statistics, Tahrik-i-Jadid, Rabwah, Pakistan, which was established under the direction of Hazrat Khalifatul Masih IV (may he live long to guide our destinies), during 1983. They are based on the data collected from different departments and ancilliary organizations of the Central Headquarters.

The Department of Statistics is still busy in preparing more charts. All of them will be displayed in the centennial exhibitions which will be held in various countries on this occasion and a few of them bearing international significance will form a part of the Central Jubilee Souvenir.

This compilation is basically a guide for all Ahmadiyya Centres. Hazoor has very graciously directed that all centres must prepare their own charts on the country level. The charts thus prepared will be displayed in the centennial exhibitions which will be held on country/regional levels throughout the world. A few charts of national importance will be included in the National Jubilee Souvenirs which will be published by all countries on the national levels.

The Amirs/Missionaries Incharge are requested to contact the undersigned to seek any guidance or help if required in this regard.

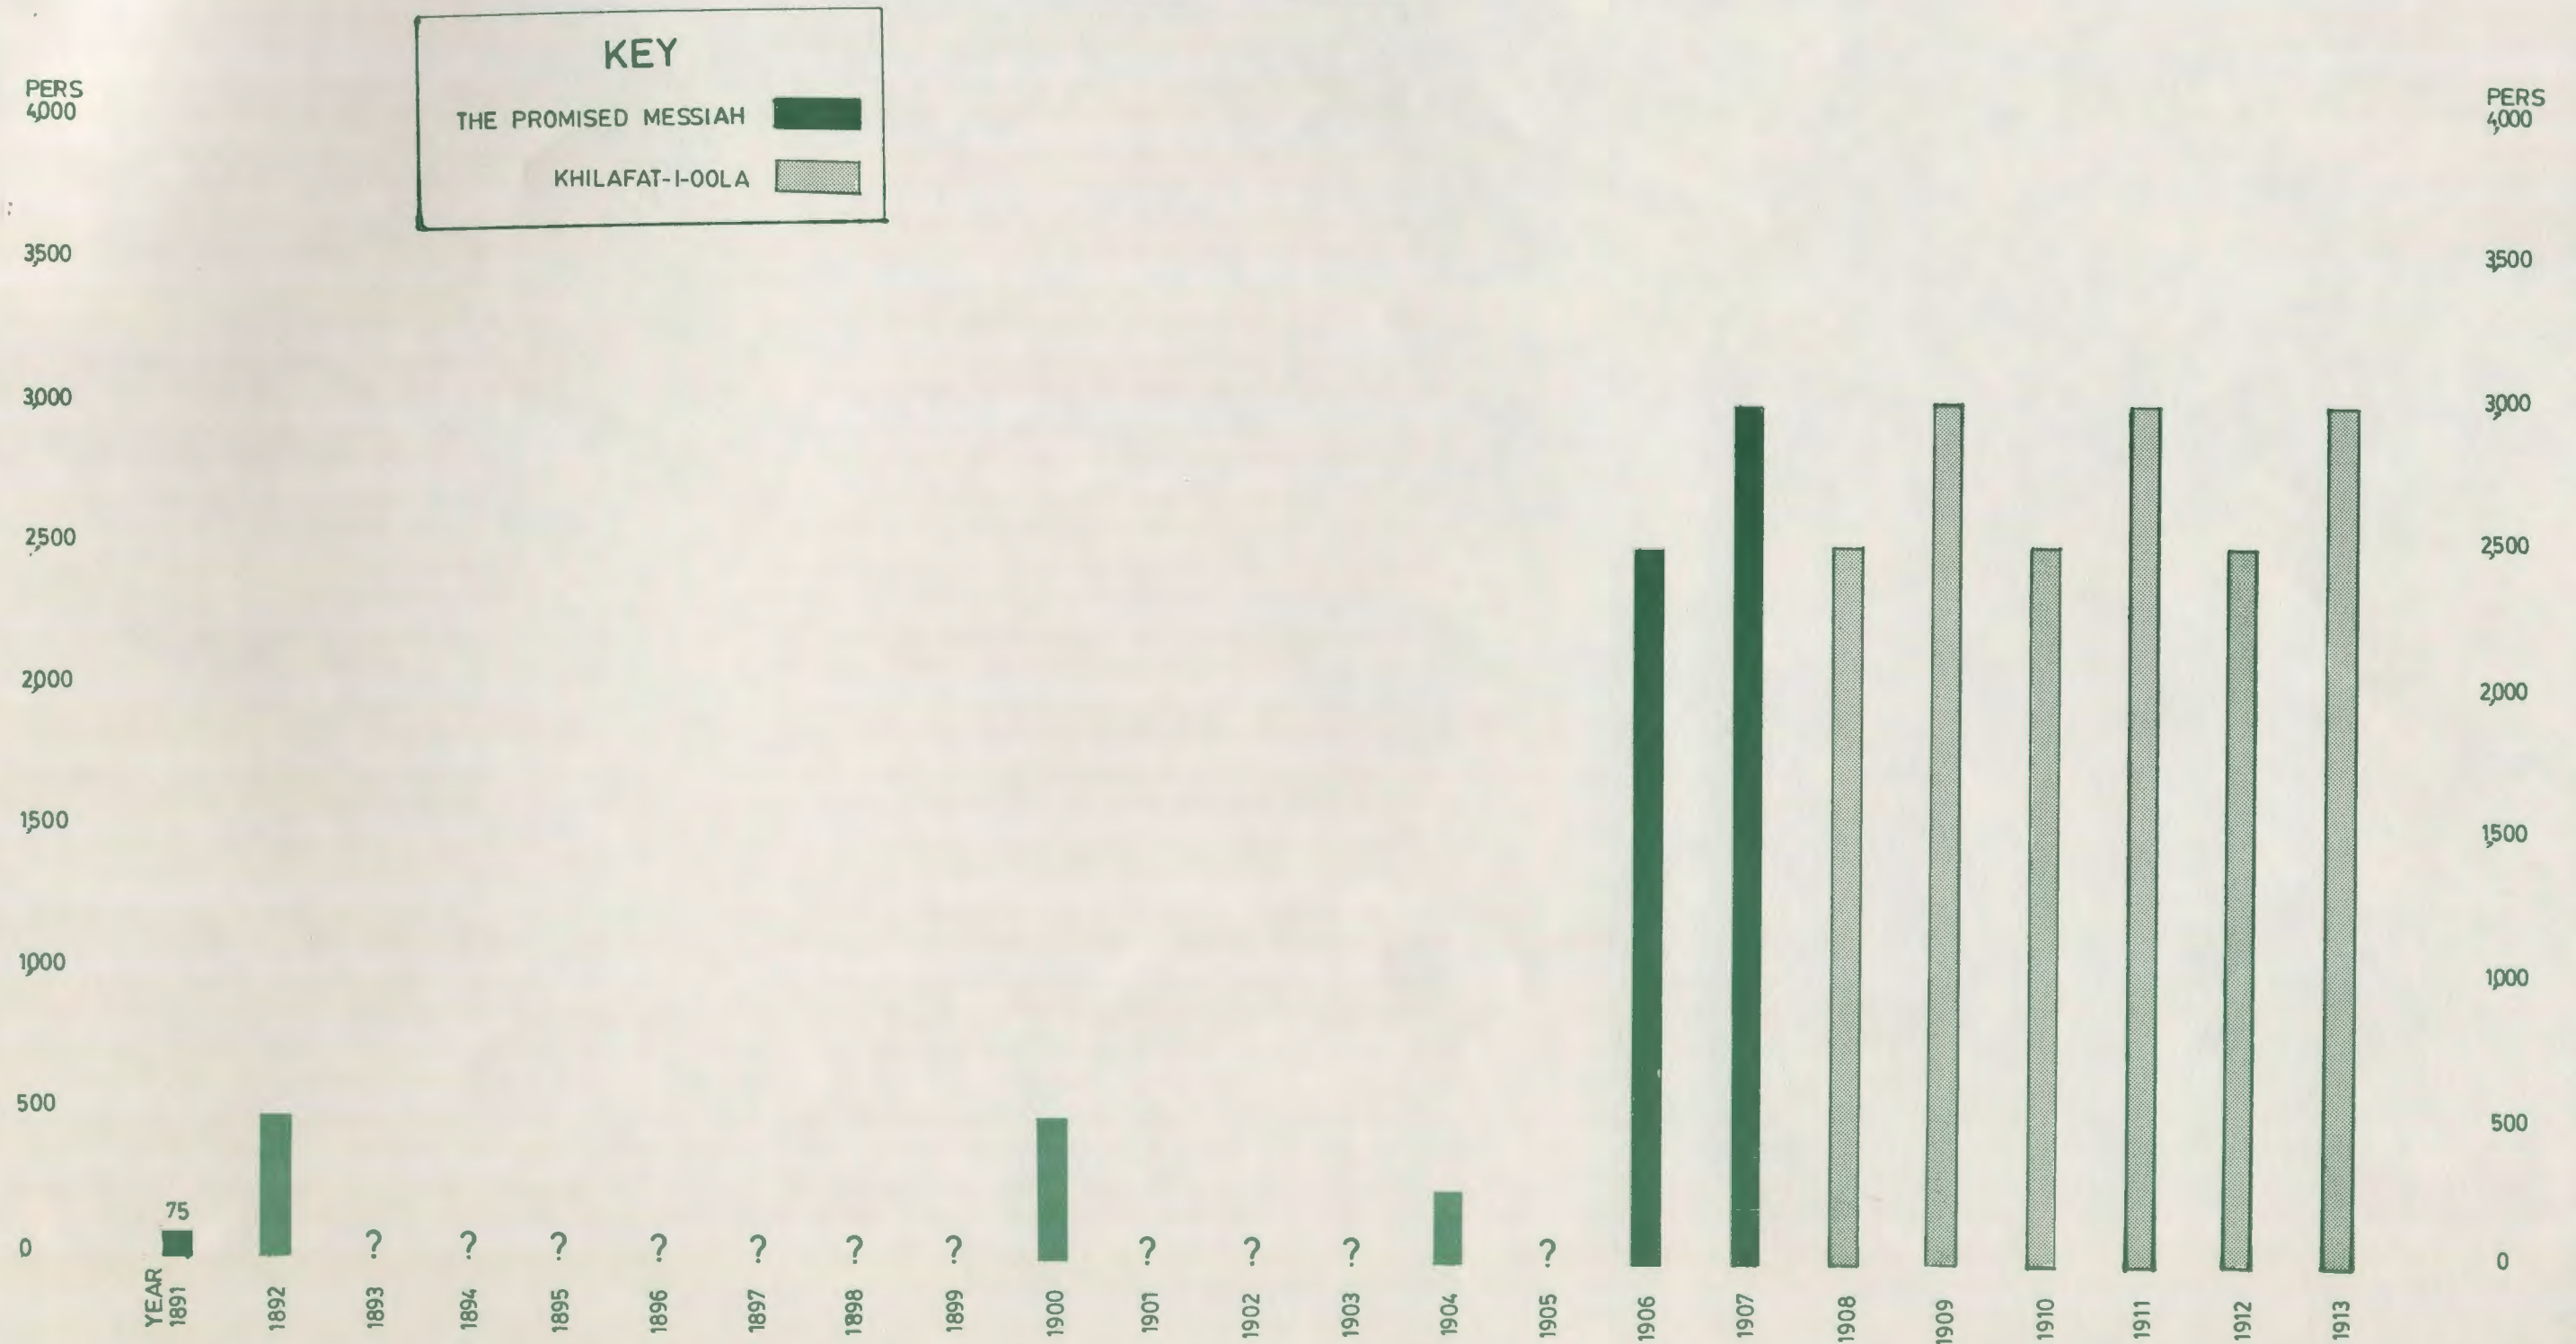

January 31, 1987  
Washington, D.C.

Mushtaq A. Shaique  
Secretary, Central Committee  
Ahmadiyya Muslim Centenary Jubilee
